

FORESITE CRYSTAL VENTURES

Integrated engineering for the mining and industrial sector.

Electrical and instrumentation, mechanical works, mining support and equipment supply - from Tema, Ghana, across West Africa and beyond.

COMPANY PROFILE · 2026

ABOUT THE COMPANY

A multi-disciplinary engineering and project management firm.

Foresite Crystal Ventures is based in Tema, Ghana. We provide integrated solutions across the electrical, mechanical and mining sectors, delivering high-quality infrastructure and dependable equipment supply for industrial growth.

Our mission

Innovative, reliable and cost-effective engineering and technical solutions that empower the mining, agricultural and construction industries in Ghana and beyond.

Our vision

To be the leading indigenous partner of choice for industrial project management and equipment supply, recognized for technical excellence and operational integrity.

Our services

Electrical and instrumentation

Full-scale electrical construction works and instrumentation services for industrial facilities.

Design engineering

Specialized design in electrical, instrumentation and process-control systems.

Mechanical projects

Installation and comprehensive maintenance of mechanical systems.

Mining support

Supply of specialized mining equipment and technical consultancy on site.

Agricultural support

Supply of modern farming equipment to raise productivity on commercial farms.

Electrical services

House wiring, electrical installations, and transformer and panel maintenance for homes, offices and industry. 24/7 call-out in Tema and Greater Accra.

Our track record

2012

Ambatovy Project

Machinery operation, installations, wiring and instrumentation.

2013

African Minerals Project

Instrument and electrical supply works and installation.

2018

Newmont Project

Electrical installation and construction.

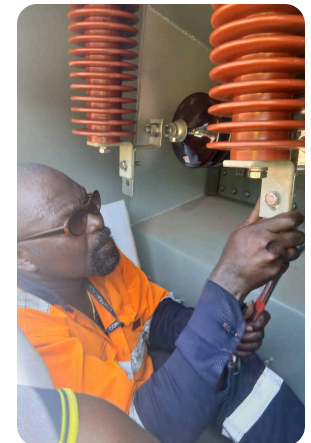

2021

Technical team lead

Directing all technical works on site in Ghana and Sierra Leone.

WHERE WE ARE GOING

- Expand our supply fleet and grow our maintenance contracts across the mining belts.
- Grow into a full engineering, procurement and construction (EPC) firm for multi-million-dollar industrial installations.
- Build a dedicated supply chain for mining and farming equipment.

WHO WE SERVE

Mining houses, commercial farms and government infrastructure.

Located in the industrial hub of Tema, we are positioned to serve the port and the surrounding industrial zones - a versatile vendor that bridges design engineering and physical implementation.
